

RSA Study Update

August 6, 2009

We have been informed that RSA has been directed to share the PACT study with the senate leadership and Governor prior to its release to the PACT Board. Additionally, it is not to be released until after the expected special session of the Legislature. A date for the special session has not been set by the Governor at this time. Therefore, the results of this study will not be available to the Board at the meeting August 19th.
